DETAILED ACTION

Claims 30 and 32-52 are pending in the application.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claims 36-38, 41 and 47-49 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The amendment to claims 36, 41 and 47 where the risperidones are used in the method of treating **psychosis** is not described in the specification (emphasis added).

Applicant is required to cancel the new matter in the reply to this Office action.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

2. Claims 34, 35, 40, 41, 46 and 51 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The following reasons apply:

a) Claim 34 is vague and indefinite in that it is not known what is meant by the pharmaceutical formulation of claim 31. There is no claim 31, i.e. claim 31 has been canceled.

Art Unit: 1624

- b) Claims 35, 40, 46 and 51 are vague and indefinite in that it is not known what is meant by a sub-lingual table.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 30 and 32-52 are rejected under 35 U.S.C. 102(b) as being anticipated by Kennis et al. U.S. Patent No. 4,804,663. Kennis teaches the compositions and method of use of the risperidone compounds of the instant invention as set forth in example 5 and the claims. Kennis has oral solutions in example 11, capsules in example 12, film-coated tablets in example 13 and injectable solutions in example 14, etc. Once the solutions are prepared, the crystalline form vanishes. That is the solution from form A, the solution from form B and the solution from form E is the same.

Claim Objections

4. Claims 32, 33 and 39 are objected to as a duplicate of claim 30. This is the exact same thing. Claim 32, 33 and 39 simply describes it in a bit more detail, but the product is identical. It is not possible to infringe claim 30 without infringing claims 32, 33 or 39 and vice versa.
5. Claims 43, 44 and 50 are objected to as a duplicate of claim 42. This is the exact same thing. Claim 43, 44 and 50 simply describes it in a bit more detail, but the product

is identical. It is not possible to infringe claim 42 without infringing claim 43, 44 or 50 and vice versa.
